

Tiff's Gifs - User Stories

(Project #2 – 8/26/2024)

Scenario 1 – Mobile Friendly

I am Meg Riley, a 20-something social media influencer. I love to find new gifs to share on Instagram to bring joy to my followers. Being able to search on a mobile friendly site is especially important as I'm constantly on the go.

Scenario 2 – PC Friendly

I am Kevin McCall a website designer and social media coordinator for several local businesses. Many of my clients want catchy gifs included on their sites and posts to attract customers so I like a site that is both mobile and pc friendly so I can work whenever I need to.

Scenario 3 – Site Simplicity

I am Bob Smith and I run a site about cats. I am always looking for a new gifs and memes about cats to post on my site. I like a search that's uncomplicated and easy to navigate.
